**Improving  
Perceptions**

Mineral Products Association

**Charter and Members'  
Handbook 2017**

# Background

Since its formation in 2009, MPA has grown significantly and its membership represents the vast majority of UK mineral products operating companies across its 14 product groups.

The Association has become established and recognised as the sectoral organisation for the mineral products industry. Having one integrated association, where policy development from the 'bottom up' is discussed in the Regions and relevant expert committees before being signed off at Council and Board level, ensures that the sector has effective governance. MPA is able to share best practices across all products efficiently to influence operator behaviour and in turn external perceptions amongst key stakeholders.

Now that the Association has become established, it is time to look forward. Members have been consulted on their vision for 2025, the strategic priorities, the objectives and targets in order to ensure that the industry evolves, raises standards, improves perceptions, and is therefore well-placed for the future.

*We want membership of MPA to be 'valued and mean something.'*

Development and implementation of the MPA Charter will help clarify, simplify and consolidate expectations that the members have for themselves and have a positive impact on the way the industry operates over the next 10 years or so.

**5 key aims** underpin the work of the MPA, creating the high level agenda it uses to influence Government and other key stakeholders.

**We seek:**

- 1. Economic conditions that support investment**
- 2. Better Government support for an essential industry**
- 3. A reasonable licence to operate**
- 4. Proportionate legislation and regulation**
- 5. Recognition of progress**

MPA Charter

Introduction

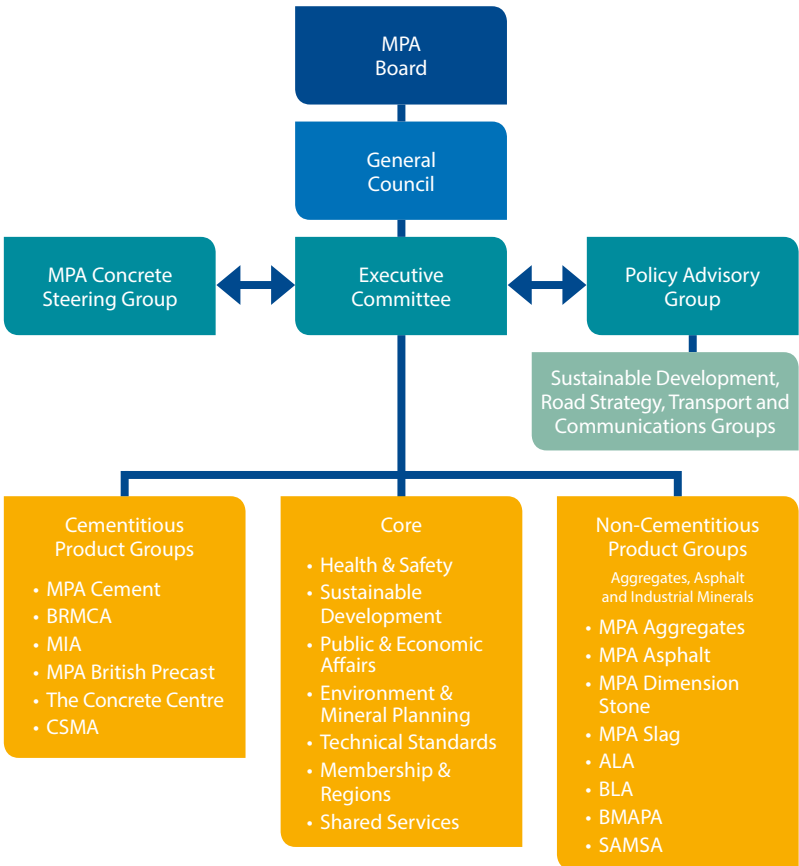

# Introduction

# Who we are

MPA is the industry trade association for the aggregates, asphalt, cement, concrete, dimension stone, lime, mortar and silica sand industries.

The operational structure of MPA is set out below:

# What we do

MPA represents the interests of MPA members and the industry with all levels of Government, regulators, other organisations and external audiences.

## Key activities include:

- **Improving health & safety**
- **Representing the sector**
- **Raising awareness of the sector and its contribution to the economy**
- **Gathering and presenting evidence and information**
- **Influencing policy, regulation and legislation in the UK and EU**
- **Protecting the industry's licence to operate**
- **Safeguarding and developing markets**
- **Improving perceptions**
- **Informing on markets and economic contribution**
- **Influencing technical and design standards**
- **Influencing supply chains**
- **Encouraging innovation**
- **Promoting the use of mineral products**
- **Educating stakeholders to 'Make the Link' between mineral products and their use**

# What we stand for: our values

## MPA Members are:

- ✓ Committed to the principles of **sustainable development**
- ✓ Committed to achieving **Zero Harm**
- ✓ Committed to **raising competence and skill levels** in the industry
- ✓ Committed to protecting and enhancing **UK Biodiversity**
- ✓ Committed to the **high quality restoration of land** to valuable after uses
- ✓ Committed to **reducing carbon** and other industrial emissions
- ✓ **Socially and environmentally responsible** suppliers of essential materials
- ✓ Committed to the **sustainable use** of their products by end users
- ✓ Committed to **maximising recycling** of materials, **improving resource efficiency** and **contributing to the 'circular economy'**
- ✓ **Valuable and active members of their communities**, particularly in rural areas
- ✓ Able to **provide a range of career opportunities and career development** and respond to skills shortages
- ✓ **Innovative** and share good and best practice particularly in health and safety and sustainable development

# MPA Charter

# MPA Charter

# Membership of MPA & MPA Charter

There are **3** types of membership of the MPA:

## **Producer Members**

are those companies who extract minerals, process, manufacture, distribute, and sell mineral products, including aggregates, asphalt, cement, concrete, dimension stone, lime, mortar and silica sand.

## **Associate Members**

are typically consultants, lawyers, specialist suppliers, plant and equipment manufacturers or contractors.

## **Affiliates**

are representative organisations, normally trade associations with a common interest.

The Charter does not apply to Associate Members or Affiliates, unless they choose for it to do so.

Membership of the MPA means that companies agree to operate in accordance with the Memorandum & Articles of Association and the MPA Charter, which includes the; ***Vision, Strategic Priorities and Objectives, Policies and Data Collection, Information and Commitments***, and also to respect the ***Core Values***.

The MPA Charter is the vehicle that will enable the Vision for 2025 and the Strategic Priorities to be achieved by; ***Driving Change, Raising Standards and Improving Perceptions***.

# The MPA Vision for 2025

Member consultation has established that the industry wishes:

*‘to be valued as an essential and economically, socially and environmentally sustainable industry of significance to the economy and our way of life’*

and perceived as:

- **cohesive and well-organised, responsible and accountable**
- **creative, collaborative and outward looking**
- **professional and competent, setting high standards to retain and attract new people, reflecting UK diversity**
- **innovative, embracing the use of best available technology and sharing best practices**
- **engaging constructively and strategically with Government, regulators, local communities and other stakeholders**

# MPA Strategic Priorities and Objectives

Consultation has established the following as the **7 main Strategic Priorities** which will underpin the achievement of the Vision for 2025.

# MPA Strategic Priorities and Objectives

The broad objectives of the **7 Strategic Priorities** are as indicated below. Delivery of the objectives and targets, where applicable, is managed through MPA's Committees and Working Groups.

Strategic Priority	Objective
<b>Health &amp; Safety</b>	<ul style="list-style-type: none"> <li>• <b>Employee and Contractor Health &amp; Safety:</b> treat the health, safety and well-being of employees, contractors and visitors as the number one priority in order to achieve Zero Harm</li> <li>• <b>Public Safety:</b> protect the general public around active operations, on disused sites and in the transportation and use of our products</li> </ul>
<b>People</b>	<ul style="list-style-type: none"> <li>• <b>Employment:</b> improve the profile and perception of the sector to attract employees and offer rewarding career opportunities</li> <li>• <b>Skills and Competence:</b> ensure all employees and contractors have the necessary and relevant skills and competences</li> <li>• <b>Equality and Diversity:</b> encourage opportunities in the industry for all, attracting and retaining the best talent</li> <li>• <b>Local Communities:</b> engage fully with local communities and strive to be good neighbours</li> </ul>
<b>Resource Use</b>	<ul style="list-style-type: none"> <li>• <b>Access to Sufficient Minerals &amp; Resources:</b> plan, consult and engage with communities, planning authorities and regulators when seeking new permissions to ensure steady and adequate supply</li> <li>• <b>Circular Economy and Resource Efficiency:</b> make the most efficient use of all resources, embracing the principles of the Circular Economy</li> <li>• <b>Water:</b> optimise the use of water and ensure prudent management</li> <li>• <b>Waste:</b> minimise waste and maximise re-use and recycling</li> </ul>

# MPA Strategic Priorities and Objectives

Strategic Priority	Objective
<b>Climate Change and Energy</b>	<ul style="list-style-type: none"> <li>• <b>Carbon &amp; Atmospheric Emissions:</b> reduce emissions in accordance with the MPA carbon route maps and Government objectives</li> <li>• <b>Energy:</b> optimise the use of energy whilst maximising the use of non fossil fuels</li> <li>• <b>Transport:</b> reduce the climate change and other impacts of the transportation and delivery of products</li> <li>• <b>Adaptation:</b> develop products and solutions to reduce the impacts of climate change</li> </ul>
<b>Natural Environment</b>	<ul style="list-style-type: none"> <li>• <b>Biodiversity:</b> protect and enhance biodiversity and deliver net gain wherever possible</li> <li>• <b>Land Restoration:</b> restore land to high quality and undertake good aftercare</li> <li>• <b>Natural Capital:</b> protect natural capital and enhance where possible</li> <li>• <b>Geodiversity:</b> protect geodiversity and enhance where possible</li> <li>• <b>Heritage:</b> protect national and local heritage assets appropriately</li> <li>• <b>Environmental Protection:</b> minimise and mitigate operational impacts</li> </ul>
<b>Built Environment</b>	<ul style="list-style-type: none"> <li>• <b>Technical Codes and Standards:</b> influence the maintenance and development of European and UK technical codes and standards</li> <li>• <b>Sustainable Products:</b> promote the development and use of sustainable and responsibly-sourced mineral products</li> <li>• <b>Sustainable Construction:</b> influence the design and procurement of the built environment with high quality and sustainable solutions</li> </ul>
<b>Communicating Industry Value</b>	<ul style="list-style-type: none"> <li>• <b>Contribution to Economy and Supply Chain:</b> quantify the industry's contribution to local and national economies</li> <li>• <b>Influencing the Business Environment:</b> work with Government and others to encourage investment and sustainable growth</li> <li>• <b>Stakeholder Engagement:</b> engage with stakeholders in a transparent and informative way</li> <li>• <b>Making the Link:</b> enable stakeholders to 'Make the Link' between the activities of the mineral products industry and its contribution</li> </ul>

# MPA Member Policies

The current policies which all Producer Members are expected to observe are summarised below:

- **Zero Harm and Safer by Competence**
- **Vulnerable Road User Safety and Driver Training**
- **Sheeting of Delivery Vehicles**
- **Contractor Safety**

# Zero Harm and Safer by Competence

Achieving **Zero Harm** is the number one priority for the Mineral Products industry.

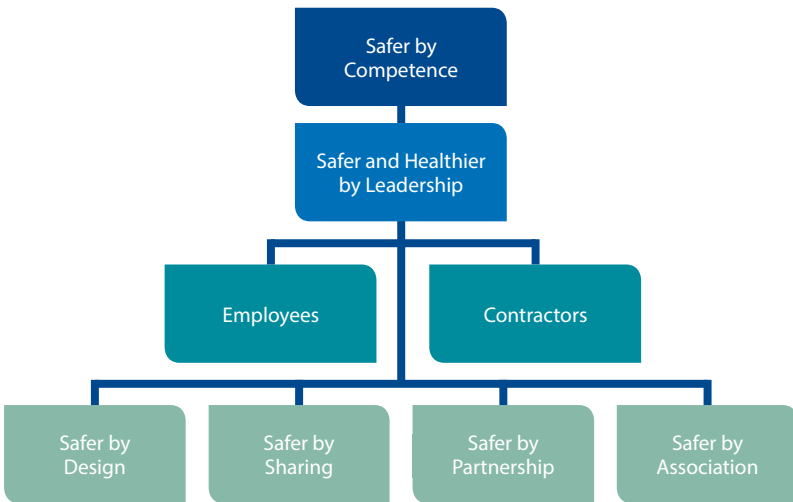

## Safer by Competence

To help achieve Zero Harm, the MPA has devised a framework to deliver demonstrable personal competence across the industry. This comprises a series of initiatives and targets encompassing employees and contractors across all products and services within the MPA's membership.

The framework sets out routes to meeting National Occupational Standards relevant to job functions, with a range of targets applicable to all in operational employment. For the great majority of MPA members, NVQ/QCF/SCQF vocational qualifications routes provide the logical solutions and these represent the preferred approach. To help individuals, employers and advisers, the Mineral Products Qualifications Council has produced an updated Competence Map. Please see the MPQC website ([www.mpawards.co.uk](http://www.mpawards.co.uk)) for more information.

'Safer by Competence' is supported by a family of complementary 'Safer by...' Initiatives (see overleaf).

# Zero Harm and Safer by Competence

**Safer and Healthier by Leadership** – Initiative highlighting the role of leadership in improving health and safety performance.

**Safer by Design** – Voluntary guidance addressing the design vacuum that exists between many manufacturers and users of mobile plant.

**Safer by Sharing** – MPA Seminars giving H&S guidance to members by sharing good practice; peer-to-peer assistance facilitated by MPA.

**Safer by Partnership** – Package of measures focused on contractor safety.

**Safer by Association** – Site H&S evaluation and improvement tool for non-specialists.

Health considerations are an embedded part of all aspects of the Safer by Competence framework.

# Vulnerable Road User Safety and Driver Training

**MPA's Vulnerable Road User Safety Policy** applies to all vehicles delivering on behalf of members which are over 3.5 tonnes GVW and focuses on driver training and vehicle safety equipment.

## Driver Training

- All drivers delivering on behalf of members must hold MQPC Driver Skills Card or equivalents (e.g. company courses approved by MPQC) with renewal within 5 years.
- All drivers delivering on behalf of members are required to undertake VRU safety training, based on MPQC CPC-approved course or equivalent.
- VRU safety training should be progressive, with a view to expanding training to include cycle hazard awareness.

## Vehicle Safety Equipment

All in scope delivery vehicles must be fully in accordance with current legislation and Construction and Use regulations and be fitted with additional safety equipment.

# Vulnerable Road User Safety and Driver Training

## Additional or Specified Equipment Requirements

MPA members are required to equip new vehicles to the standard and timings set out below. Drivers using vehicles in environments with significant numbers of vulnerable road users should consider accelerating the fitting of recommended equipment.

Equipment type	New vehicles/ timing	Existing and all vehicles/ timing	Existing policy	Notes
<b>Reversing Alarm</b>	Yes/now	Yes/now	Yes	
<b>Rear View Camera</b>	Yes/now	Yes/now	Yes	
<b>Flashing lights/ beacons</b>	Yes/now	Yes/now	Yes	Compliant to HA chapter B
<b>Vehicle conspicuity</b>	Yes/now	Yes/now	Yes	Either light coloured vehicles or reflective side and rear markings
<b>Daytime running lights</b>	Yes/legal requirement for certain type approvals	Yes/legal requirement for certain type approvals	Yes	Recommended for all vehicles

# Vulnerable Road User Safety and Driver Training

Equipment type	New vehicles/ timing	Existing and all vehicles/ timing	Existing policy	Notes
<b>Mirror class VI</b>	Yes/now	Yes/now	Yes	
<b>Rear warning sign for cyclists</b>	Yes/now	Yes/now	Yes	
<b>Side under-run guards for tippers - both sides</b>	Yes/now	Yes/Dec 2017	Yes	Compliant to C and U regulations
<b>Blind spot elimination devices (sensors and/or cameras)</b>	Yes/now	Yes/Dec 2017	Yes	Positive response reported from drivers
<b>Audible warning for cyclists and pedestrians linked to low speed operation and left indicator AND additional side indicator linked to audible warning</b>	Yes/now	Yes/Dec 2017	Yes	Equipment designed for use in low speed, built up areas when turning left.  Can be disabled where nuisance is an issue, subject to risk assessment.
<b>Sheeting of Tippers</b>	Yes/now	Yes/now	Yes	Long term MPA policy

# Vulnerable Road User Safety and Driver Training

## **Management of Haulage Operations**

Transport fleet operators are required to ensure that the management of transport operations meets the standard of an approved independent fleet management audit, for example the Fleet Operator Recognition Scheme (FORS).

## **Collision Reporting**

Fleet operators are required to collect, investigate and analyse information collected in relation to collisions involving their vehicles which result in injury or damage to vehicles and property.

## **Traffic Routing**

Members should ensure that delivery routes specified by clients/customers are adhered to unless directed otherwise.

## **Construction Client Requirements**

When acting as construction clients/contractors, MPA members should implement standards to improve general safety associated with materials delivery and unloading. These include planning of deliveries, good site access and egress and safe, flat areas for loading and unloading.

# Sheeting of Delivery Vehicles

- All member-owned tipping vehicles and those tipping vehicles working for members shall be sheeted when leaving members' premises, when they are carrying any aggregates with a grading less than 150mm.
- It is the responsibility of individual members to ensure that all such vehicles are sheeted and unsheeted in accordance with a safe system of work.
- All members' owned tipping vehicles and tipping vehicles in members' livery over 10 tonnes GVW whether covered by a formal contractual arrangement or not should be fitted with ground operated sheeting system.
- MPA members will actively pursue a policy of encouraging all hauliers to fit appropriate vehicles with ground or cab operated sheeting systems.
- For vehicles less than 10 tonnes GVW, and those vehicles fitted with grabs and other ancillary equipment, members should ensure that safe practice is used in the sheeting of these vehicles.

# Contractor Safety

## **Zero Harm**

MPA members and their Contractors will work closely together to reduce contractor injuries and the incidence of ill health, with the aim of achieving the target of Zero Harm.

## **Competency**

MPA members will use only Contractors who are competent. Contractors will provide personnel and sub-contractors who are competent for the work to be undertaken and are working towards MPA's competency targets. On matters of health & safety, MPA members will consider the needs of Contractors with the same enthusiasm as for employees.

## **Consistency of MPA Members' Approach**

MPA members will continue to work together to develop consistency in their approach to health & safety fundamentals for the benefit of all parties, e.g. 'golden rules'; risk assessments; method statements; lock-out procedures; etc.

## **Risk Management**

MPA members and Contractors will ensure that all risk assessments are specific for the work to be undertaken and have been prepared by competent persons including those involved in the task.

## **Supervision**

MPA members and, where appropriate, Contractors will provide a point of contact on site and will ensure that the level of supervision is appropriate for the work being undertaken. MPA members and Contractors will provide a working environment that is fair and reasonable, and encourages an open approach towards improving health and safety.

# Contractor Safety

## Communication

MPA members will involve Contractors on site in Health & Safety Committees, safety briefings and toolbox talks, when appropriate. MPA Members and Contractors will encourage 'Near Hit' reporting as a positive leading indicator and will empower their employees to challenge conditions which may undermine the target of Zero Harm.

## Occupational Health

Contractors will work with MPA members to address occupational health issues.

## Safe Plant and Equipment

Contractors will ensure, by their own declaration, that their plant, tools and equipment are fit for purpose and meet accepted Industry standards.

## MPQC Contractors Safety Passport

MPA strongly recommends that all Contractors obtain and retain valid MPQC/SPA Contractor Safety Passports and that MPA members request sight of these Passports upon the Contractor's arrival, as part of a site specific induction. By exception, client exemptions may apply if the contractor is working under close, effective and proportionate supervision.

## MPA Contractor Database

MPA very strongly recommends all Contractors to engage with the MPA National Contractor Database. More information at [www.avetta.com](http://www.avetta.com)

## MPA Health & Safety Awards Scheme

MPA members will encourage Contractors to participate in the annual MPA Health & Safety Awards Scheme. Contractors will commit to take note of relevant articles in MPA's "Sharing Good Practice" guides and all other relevant guidance freely available at [www.Safequarry.com](http://www.Safequarry.com) and [www.Safeprecast.com](http://www.Safeprecast.com)

# Data Collection, Information and Commitments

The commitments indicated below are derived from the existing mandatory and voluntary membership commitments.

■ **Mandatory** ■ **Voluntary**

## General

- To submit accurate annual tonnage returns for subscription calculation.
- To pay subscriptions in a timely fashion.
- To provide MPA market information data in response to MPA surveys as appropriate.

## Health & Safety

- To submit H&S data to support the Hard Targets initiative.
- To support the achievement of the competence milestones in 'Safer by Competence' and submit accurate data.
- To support the MPA Driver Training Initiative that all drivers delivering on behalf of members hold or are in the process of obtaining a Drivers Skills Card.
- To submit data relating to Respirable Crystalline Silica as part of our commitment to the NEPSI Social Dialogue Agreement.
- To provide entries for the H&S awards.
- To support the 'Stay Safe' public safety campaign and submit data on incidents.

## People

- To evaluate the need for a Community Engagement Plan for extractive sites and where appropriate at other sites (MPA guidance and template to be provided)
- To submit data on the number of valid complaints made by members of the public.
- To submit data on employee diversity.

### Resource Use

- To submit data on mains and licensed abstracted water.
- To submit data relating to planning application performance as part of the MPA Annual Mineral Planning Survey (AMPS).
- To submit data on water discharges to the environment.
- To have sites metered for water use in accordance with the MPA Technical Guidance on Water Management.
- To operate sites in accordance with the Waste Hierarchy and submit data on waste produced on site sent to landfill.
- To submit data on the amount of Extractive Waste produced on site.
- To submit data on the amount of waste used for restoration purposes in accordance with the site Planning Permission.

### Climate Change and Energy

- To submit data on operational energy use to enable MPA to calculate sectoral carbon emissions (MPA Cement members to refer to specific reporting requirements for cement).
- To submit data on fuel use for transport where available.

### Natural Environment

- To assess and implement, where appropriate, a Biodiversity Action Plan for extractive sites.
- To report on operation of an ISO14001 and any other environmental management scheme (if applicable).
- To submit data on the total area of SSSIs owned or managed.
- To submit data on the total Priority Habitat created.
- To submit data on the total land surveyed for archaeological investigation prior to extraction.
- To provide entries for the Restoration and Biodiversity Awards.
- To provide sites for inclusion in the MPA National Nature Park.

### Built Environment

- To report on the operation of any relevant quality management systems (if applicable).
- To report on the operation of a responsible sourcing scheme and indicate what level (if applicable).

# MPA Targets

# MPA Targets

# MPA Targets

These targets are not intended to apply to members individually. MPA will consolidate data returned to it and compile results to enable monitoring in the same way as it does with existing health and safety data. The overall results of monitoring will be reported back to members and any action required discussed and agreed with them.

	Targets
<b>Health &amp; Safety</b> <b>Employee and Contractor Health and Safety</b>	<p>To treat the health, safety and well-being of employees, contractors and visitors as the number one priority in order to achieve Zero Harm</p> <p><b>Target:</b> The MPA targets Zero Harm to all employees and contractors; in order to move further in that direction, we have set a target of further reducing Lost Time Incidents by 65% between 2014 and 2019.</p>
<b>People</b> <b>Local Communities</b>	<p>To engage fully with local communities and strive to be good neighbours</p> <p><b>Target:</b> To evaluate the need for a Community Engagement Plan for extractive sites and where appropriate at other sites and implement where necessary by 2020.</p>
<b>Resource Use</b> <b>Water</b>	<p>To optimise the use of water and ensure prudent management</p> <p><b>Target:</b> 100% of all sites to be measured for water consumption and discharges by 2025.</p>

# MPA Targets

	Targets
<b>Resource Use</b> <b>Waste</b>	<p>To minimise waste and maximise re-use and recycling.</p> <p><b>Target:</b> To minimise extractive waste produced on site during the excavation phase in accordance with the mining waste directive BREF.</p> <p>Optimise waste used beneficially in accordance with the site Planning Permission for restoration purposes.</p>
<b>Climate Change and Energy</b> <b>Carbon and Atmospheric Emissions</b>	<p>To reduce emissions in accordance with the MPA carbon route maps and Government objectives.</p> <p><b>Target:</b> MPA to quantify the amount of CO<sub>2</sub> produced per tonne of product produced by each sector by 2020.</p>
<b>Climate Change and Energy</b> <b>Energy</b>	<p>To optimise the use of energy whilst maximising the use of non-fossil fuels.</p> <p><b>Target:</b> MPA will quantify the amount of energy consumed per tonne of product produced by each sector by 2020.</p>
<b>Climate Change and Energy</b> <b>Transport</b>	<p>To reduce the climate change and other impacts of the transportation and delivery of products.</p> <p><b>Target:</b> To understand and obtain a baseline for the amount of CO<sub>2</sub> produced per tonne of product during transportation by 2020.</p>

# MPA Targets

	Targets
<b>Natural Environment Biodiversity</b>	<p>To protect and enhance biodiversity: deliver net gain wherever possible.</p> <p>Increase the area of priority Habitats through quarry restoration.</p> <p><b>Target:</b> 100% of extractive sites to have a Biodiversity Action Plan in place by 2025.</p>
<b>Natural Environment Natural Capital</b>	<p>To protect natural capital and enhance where possible.</p> <p><b>Target:</b> MPA to produce a report to assist minerals industry understanding of the Natural Capital balance of the industry by 2020.</p>
<b>Natural Environment Environmental Protection</b>	<p>To minimise and mitigate operational impacts</p> <p><b>Target:</b> 100% sites to have an Environmental Management System in place by 2025.</p>

	Objective	Member Input
<p><b>Quarries &amp; Nature</b></p> <p><b>Staff lead:</b> <b>Elizabeth Clements &amp; David Payne</b></p>	<p>To showcase our members' and the industry's unique ability to deliver local and national biodiversity targets and the MPA Biodiversity Strategy.</p> <p>Also, to demonstrate the industry's valuable legacy of restored sites.</p>	<ul style="list-style-type: none"> <li>• MPA Biodiversity Awards - entries.</li> <li>• MPA Restoration Awards - entries.</li> <li>• MPA Nature Photo Competition entries.</li> <li>• 'Quarry Watch' pilot – provide case studies, sites for filming, expertise.</li> <li>• Online National Nature Park – provision of sites.</li> <li>• Provide case studies.</li> </ul>
<p><b>Younger Generation</b></p> <p><b>Staff lead:</b> <b>Elizabeth Clements</b></p>	<p>To provide generic and positive information on careers opportunities in the sector.</p> <p>To provide an information hub for teachers (particularly primary) via Virtual Quarry.</p>	<ul style="list-style-type: none"> <li>• Advise MPA during review of current resources.</li> <li>• Share resources/case studies.</li> </ul>

# Strategies

<b>Biodiversity</b>	<p>MPA members will continue to take a positive approach to nature conservation, leaving behind more and better quality habitats than before through sensitive site selection, management, restoration and aftercare.</p> <p>MPA and its members will:</p> <ol style="list-style-type: none"><li>1. Extend our knowledge</li><li>2. Share best practice</li><li>3. Develop our partnerships</li><li>4. Celebrate our successes</li><li>5. Understand our contribution</li><li>6. Increase our influence</li><li>7. Promote biodiversity education</li></ol> <p>For full details, please see the MPA Biodiversity Strategy, available on the MPA Members' Website.</p>
<b>Water</b>	<p>The strategy sets out three aims:</p> <ul style="list-style-type: none"><li>- Minimising water consumption</li><li>- Prioritising use of the most sustainable water sources</li><li>- Protecting the water environment</li></ul> <p>Achieving these will enable the mineral products industry to improve its understanding of the amount of water consumed and demonstrate where measures have been implemented to reduce consumption, use the most sustainable water sources and maintain water quality.</p> <p>MPA members are committed to the sustainable use of water over the entire product life cycle (cradle to grave) and designing products and solutions that will contribute to sustainable development.</p> <p>This strategy will be reviewed in 2018 by which time the measures set out will have provided baseline data and a greater understanding of the industry's interaction with the water environment.</p> <p>For full details, please see the MPA Water Strategy, available on the MPA Members' Website.</p>

**Concrete Industry Sustainable Construction Strategy****Vision**

To be recognised as a leader in sustainable construction, by taking a dynamic role in delivering a sustainable, low carbon built environment in a socially, environmentally and economically responsible manner.

**Strategic Objectives**

1. Commit to our role in achieving a sustainable environment and contribute to construction industry and government initiatives.
2. Engage with the broader supply chain to inform good practice and continue to explore new ways of improving our sustainable production performance.
3. Communicate with clients to provide knowledge of concrete solutions to enable the design and construction of a sustainable built environment.

**Commitments**

1. Contribute to the delivery of a low carbon built environment.
2. Provide Life Cycle Assessment data compliant with codes and standards.
3. Develop a Material and Resource Efficiency Programme to inform best practice across the life cycle of concrete in the built environment.
4. Develop a low carbon freight initiative to support improvement in transport through the concrete supply chain to construction sites.
5. Develop a water strategy to support the measurement of sustainability performance and target setting.
6. Target continuous improvement of sustainable production performance and report annually.

The implementation and development of the Concrete Industry Sustainable Construction Strategy is overseen by the Sustainable Concrete Forum. For full details, please see the Concrete Industry Sustainable Construction Strategy, available on the MPA Members' Website.

# Health & Safety Websites, Safequarry & Safeprecast Apps

## Safequarry Website

[www.safequarry.com](http://www.safequarry.com) is the health and safety hub for the mineral products industries. It has been developed to enable all those working within the mineral products industries to have one location where they can access key health and safety information.

## MPA Safequarry App

The App is designed to make the information on the Safequarry.com website even more accessible and interactive. Via the App, users have instant access to the content on Safequarry.com such as incident alerts, industry guidance, safety videos, latest innovations, toolbox talks and much more.

**To download the MPA Safequarry App go to the App store on your device and search for Safequarry or use the attached QR codes for either Apple or Android devices below:**

**For Apple:**

<https://itunes.apple.com/us/app/mpasafequarry/id932035954?ls=1&mt=8>

**For Android:**

[https://play.google.com/store/apps/details?id=com.app\\_mpa1234.layout](https://play.google.com/store/apps/details?id=com.app_mpa1234.layout)

# Health & Safety Websites, Safequarry & Safeprecast Apps

## MPA Safeprecast App

British Precast has launched the first dedicated health and safety website and App for the precast concrete industry.

**To download the MPA Safeprecast App go to the App store on your device and search for Safeprecast or use the attached QR code for either Apple or Android devices below:**

**For Apple or Android**

## Educational Websites

# MPA Survey Data Requests from Member Companies

This is a schedule of core data requirement from members on a quarterly and annual basis. We hope that this will help members to plan for surveys.

	Sales Volume Statistics (Quarterly)	Health & Safety Statistics (Quarterly)	Annual tonnage Subscription Form (Annual)	Sustainable Development Survey (Annual)	Planning Performance Survey (Annual)
JAN	■	■			
FEB					
MAR			■	■	
APR	■	■	■	■	
MAY					■
JUN					■
JUL	■	■			
AUG					
SEP					
OCT	■	■			
NOV					
DEC					

## NOTES

1. Quarterly sales volume data collected each month from a sample of members (except for cement)
2. Health and Safety data collected after the end of each quarter from all members
3. Subscriptions tonnage, Sustainable Development and Planning data collected once annually for previous calendar year from all members

# MPA Branding

We encourage members to demonstrate that they are part of MPA on their stationery, websites and other applications. The following logos are available.

The MPA Member Primary Logo should only be used on white backgrounds. The black and white versions are for use on coloured or photographic backgrounds. Please contact Elizabeth Clements ([elizabeth.clements@mineralproducts.org](mailto:elizabeth.clements@mineralproducts.org)) for further information or advice.
