Please don’t put your life at risk by jumping into a quarry lake. Please remember that warning signs are there to protect you.
NEVER JUMP INTO WATER UNLESS YOU HAVE CHECKED IT IS SAFE TO DO SO

Please remember that quarry lakes...

- Can have very cold water – ‘Cold Water Shock’ – can make you gasp and inhale water
- Can conceal rocks and other debris beneath the surface
- Can vary in depth and be very deep
- Can be difficult to exit due to steep, slippery or crumbling sides

Please remember that warning signs are there to protect you

Do not encourage others to follow you – you could be responsible for them being injured or worse
